

Approved Elective Substitutions in Child Development

Child Development majors may use any of the following courses from the colleges and universities listed to fulfill their Elective requirement for the major. Only 9 units of lower division coursework may be transferred. All coursework completed at community colleges is considered lower division. Students who elect to use a course from another college or university may **NOT** choose a comparable CSUDH course(s) as an elective due to the overlap in course content. Please refer to the “**CSUDH Course #**” column below to assess which courses at CSUDH may **NOT** be taken if the student elects to transfer a specific course from another college or university.

If you have taken coursework elsewhere that is not listed below and you think could meet the Elective coursework requirement, please complete a course substitution form and submit it to your faculty advisor for approval. Not all courses are eligible for substitution. To have potential course substitutions evaluated, bring the following materials to the Child Development Program Office: (1) a completed **Course Substitution Form** (available on the CDV Electives Webpage), (2) a complete set of transcripts to provide evidence of course completion, and (3) a copy of the original course syllabus so the substance of the course can be evaluated.

American River College
