Academic Affairs Manual

Evaluation of Assigned/Reassigned Time Activities in the RTP Process

(Supercedes PM 80-18)

Activities for which faculty receive assigned or reassigned time shall be evaluated on the same basis — quality and quantity — as teaching, scholarship, and community service. If assigned time or reassigned time has been given for an activity, it must be so stated on the SFIF so that RTP evaluators may distinguish such activity from comparable activities performed without benefit of assigned time or reassigned time.
