Rationale:
Evidence gathered by the CSUDH Task Force to Recommend Best Practices for Non-Tenure-Track-Instructional Faculty revealed NTTF feel invisible. NTTF also expressed the need for their voices in the processes of shared governance. Given that the CSUDH teaching faculty includes 60-70% NTTF members, ensuring shared governance and inclusion is essential. NTTF are vital in assessing the degrees of success through the implementation of the recommendations of the task force, changes that will be both procedural and cultural. The Non-Tenure Track Faculty Advisory Board will focus on issues related to NTTF contributions to the work of the university, and will integrate more NTTF members into decision-making and change processes affecting NTTF via representatives from each of the colleges and divisions. These processes include faculty hiring and development, inclusion of NTTF in the governance structure at the university, college, department and division levels. Including a TTF member who has experience as a NTTF member here or elsewhere will add important perspectives and guidance to the board. The NTTF Advisory Board representatives will gather facts and opinions, disseminate information, and work to strengthen NTTF participation in core university activities to enable all faculty to achieve excellence, integration, and satisfaction in teaching, scholarly activity, and service.
