To: California State University Academic Senate

From: Dr. Ron Bergmann, Associate Vice President Information Technology and C IO

Re: Academic Senate Resolution 12-08

Date: June 6, 2012

This is a formal response from the Department of Information Technology to the CSUDH Academic Senate pertaining to Academic Senate Resolution 12-08. The Department of Information Technology is receptive to the resolution and will take the following actions:

- Retired faculty who have been granted emeritus status will continue to have the capability to update and improve the education and research material they have on line at CSUDH. They will retain web space that was provided during their tenure. They will be granted appropriate access to those sites that are managed by Information Technology.
- The Department of Information Technology will redirect browsers to the web based research and educational materials in the event that sites are moved to different servers. The retired faculty member will be solely responsible for the updates and edits of the content and internal links that are located within their web space.

This memorandum reflects the actions that will be taken by the Department of Information Technology on web sites that are under the Departments control but does not pertain to sites that are managed by other entities.

Please direct questions to the Associate Vice President for Information Technology at 310-243-3723.
