Hello

Please find below the agenda for our first Spring 2019 meeting. ShareStream team will be here to do a demo.

About ShareStream Online Media:

Media storage is integral to an optimal online educational experience. The California State University system has recently selected ShareStream education’s video platform to enhance online teaching and learning statewide collaboration to offer leading educational media platform to half a million students and faculty across 23 campuses. [ShareStream](#) is a leader in online video and media management solutions for educational institutions. The ShareStream online video platform was initially developed in collaboration with Georgetown University and is now widely deployed at educational institutions and corporations around the world.
