ADMINISTRATION

Office of the President

The Office of the President positions CSUDH among the top ten public urban universities in the country through implementation of strategic initiatives improving service delivery systems, recruiting qualified faculty and support personnel, and ensuring quality instructional programs. The President's office fosters a family-friendly, professional environment for the public, faculty, staff, students, and alumni of the university.

Academic Affairs

The Division of Academic Affairs ensures that the university's mission and goals are accomplished. We believe in academic excellence, community service, and the core values of liberal education that we will infuse in all our programs. We strongly endorse diversity in our academic and employment policies and practices. We do this by offering academic and cultural programs of excellence and by fostering an environment conducive to student learning in an urban context of unprecedented demographic diversity.

Student Affairs

The Division of Student Affairs provides services and programs in support of the educational development of students. This is achieved by a student-centered philosophy, student life activities, and an array of support and developmental services. We are committed to assisting students in enhancing their sense of purpose, autonomy, integrity, identity, and tolerance, in a caring yet challenging environment.
