The purpose of the Degree Roadmap is to serve as a
guide for planning one’s academic coursework required to
complete a specific major semester by semester. Before
enrolling, you can use the Degree Roadmap to get a feel
for the courses you'll take in this major. After enrolling, refer
to the University Catalog, Class Schedule and consult with
your academic advisor each semester for advisement to
specify which courses you will take to fulfill each graduation
requirement and are progressing toward graduation in
a timely manner as possible. The Degree Roadmap
is subject to change and is NOT to be considered a
replacement for advisement with an academic advisor.
See University Catalog for information on the Graduate
Writing Assessment Requirement (GWAR). *See reverse
side for General Education (GE) course requirements. **A
minimum of 120 units are required for completion of degree.

### Upper Division Transfer Requirements

- Complete and submit a CSU Application for Admission by the posted deadline through CSU Mentor at CSUMENTOR.EDU.
- Submit official transcripts from all colleges attended.
- Students applying to an impacted program may have to meet supplementary requirements.
- The following degree roadmap assumes you have junior standing (60 units) and have completed all lower division General
Education Courses.
- Minimum of 120 units are required for completion of degree, 30 of which must be taken in residence at CSUDH.

Career Options

A student in the Biology Department will be prepared to pursue a variety of career opportunities, depending on the curricular program chosen. An undergraduate major may choose any of the options. The Cellular and Molecular Biology Option can fulfill the major entrance requirements for professional schools of medicine, dentistry, veterinary medicine, pharmacy, optometry, podiatry and medical technology, or prepare the student for further graduate study in biology. This option also prepares students for careers in teaching, research, government, academics or the biotechnology industry. Biology graduates from CSU Dominguez Hills have competed successfully for admission to professional and graduate schools in California and elsewhere.
