WHAT IS BEING PLANNED?
The project is the adoption and implementation of the California State University, Dominguez Hills (CSUDH or University) 2018 Campus Master Plan (proposed project). The proposed project provides a framework for development of the University’s physical campus and its facilities to accommodate campus enrollment growth from its current enrollment of approximately 11,000 full-time-equivalent students (FTES) to 20,000 FTES over a planning horizon extending to 2035. In conjunction with the proposed project, CSUDH also has prepared its Guidelines for the 2018 Campus Master Plan (Guidelines) to support and advance the University’s vision of developing a vital campus that supports the facilities, buildings, improvements, and services needed for a top-performing model urban university to serve up to 20,000 full-time students.

The proposed project entails the development of new and expanded facilities in three areas of the 344-acre campus: (i) the Core Campus; (ii) the University Village; and (iii) a 3,000-seat expansion of the StubHub Center.
