

COVID-19 EMERGENCY TELECOMMUTING GUIDELINES AND ACKNOWLEDGMENT FORM FOR STUDENT WORKERS

Purpose

The purpose of this guidance is to establish the parameters for temporary telecommuting work arrangements, for eligible personnel during the COVID-19 situation that prevents California State University, Dominguez Hills personnel from being physically present on-site to perform their responsibilities. The critical consideration is to ensure that the University maintains its ability to efficiently and effectively execute its core services in various work units, while protecting the health and safety of personnel. The Emergency Telecommuting Guidelines in place due to COVID-19 are not intended to replace any guidance under normal University business operations. These guidelines are subject to change and to be revised when necessary.

Definition

Emergency telecommuting is a temporary arrangement during an emergency situation such as a natural disaster, pandemic, epidemic, quarantine restrictions or other unforeseen circumstances, etc. where an employee must still fulfill their job responsibilities to ensure business continuity. Telecommuting allows employees to perform their normal job responsibilities in a non-traditional workspace and to continue to get paid for those hours/days for which work was conducted remotely.

Authority

Government Code Sections 14200-14203 authorize every State Agency to incorporate telecommuting as a work option. The University has been delegated the authority to establish a telecommuting program within this authority. The President has delegated authority to the Office of Human Resources to administer the telecommute program.

Unit 11 - Employee rights provided in the employee's collective bargaining agreement, including the right to meet with their representative, are not affected by participation in a telecommuting program. None of the rights or benefits provided under the employee's collective bargaining agreement between the State and the employee unions are enhanced or abridged by the implementation of a telecommuting program.

Eligibility

This guidance applies to student employees whose work is determined to be necessary for the achievement of the University's mission-critical core work during an emergency. Telecommuting is neither an employee right nor an employee benefit; an employee is not entitled to telecommute. All positions are not suitable for telecommuting; therefore, a decision to permit an employee to telecommute is determined between the employee's Appropriate Administrator and the respective division Vice President. The telecommuting arrangement should focus specific work related criteria established by the employee's manager and approved by the appropriate Vice President.
