

2010 NSSE/2011 FSSE Comparison of items related to Student Learning Outcomes

Senior Students

The National Survey of Student Engagement (NSSE) collects information annually from samples of first-year and senior students about the nature and quality of their undergraduate experience. Colleges and universities in the US and Canada use NSSE to measure the extent to which their students engage in effective educational practices that are empirically linked with learning, personal development, and other desired outcomes, such as satisfaction, persistence, and graduation.

The Faculty Survey of Student Engagement (FSSE) was designed to complement the NSSE. FSSE focuses on faculty perceptions of how often students engage in different activities, and the importance faculty place on various areas of learning and development, among other topics. Pairing faculty responses to FSSE items with student responses to NSSE items can help contextualize student responses.

Below are selected NSSE/FSSE items that are central to describing the student experiences at California State University, Dominguez Hills (CSUDH) that most directly relate to student learning outcomes. For more information about NSSE results for CSUDH, please visit http://csudh.edu/oir/Research/Default.shtml.

Distribution of senior student responses to how often they did the following at their institution during the current school year			Percentage of faculty who reported that students from their upper division courses do the following often or very often	
	CSUDH	Carnegie*	Faculty	
Student Question	Very Often/ Often		Very Often/	Faculty Question
			Often	
Received prompt written or oral				Receive prompt written or oral
feedback from faculty on your	62%	67%	91%	feedback from you on their
academic performance				academic performance

Distribution of senior student responses to how often they did the following at their institution during the current school year			Percentage of faculty who reported that it is important or very important that their students in upper division courses do the following	
	CSUDH	Carnegie*	Faculty	
Student Question Very Often/ Often		en/ Often	Very Important/ Important	Faculty Question
Worked on a paper or project that required integrating ideas or information from various sources	89%	88%	90%	Work on a paper or project that required integrating ideas or information from various sources
Put together ideas or concepts from different courses when completing assignments or during class discussions	67%	69%	55%	Put together ideas or concepts from different courses when completing assignments or during class discussions
Tutored or taught other students (paid or voluntary)	18%	20%	23%	Tutor or teach other students (paid or voluntary)

Distribution of senior student responses to how often they did the following at their institution during the current school year			Percentage of faculty who reported that it is important or very important that their students in upper division courses do the following	
	CSUDH	Carnegie*	Faculty	
Student Question	Very Often/ Often		Very Important/ Important	Faculty Question
Examined the strengths and weaknesses of your own views on a topic or issue	56%	57%	84%	Examine the strengths and weaknesses of their views on a topic or issue
Learned something that changed the way you understand an issue or concept	70%	67%	95%	Learn something that changes the way they understand an issue or concept

Distribution of senior student responses to how much their coursework during the current school year emphasized the			Percentage of faculty who reported that they place quite a bit or very much emphasis on the following		
following			in their upper division courses		
	CSUDH	Carnegie*	Faculty
