# Multi-Factor Authentication (MFA)

CSUDH DUO is live - a third-party app that sends a push notification to your smartphone or token when you log into any CSUDH account.

- You can choose to use DUO on your smartphone or with a token.
- If you are choosing a token as your method of authentication, you can order one today. Shipping is free or you can pick it up on campus.

# MFA – Enforcement

## Employee Type Network Accounts

14 Days from the activation day

## Students

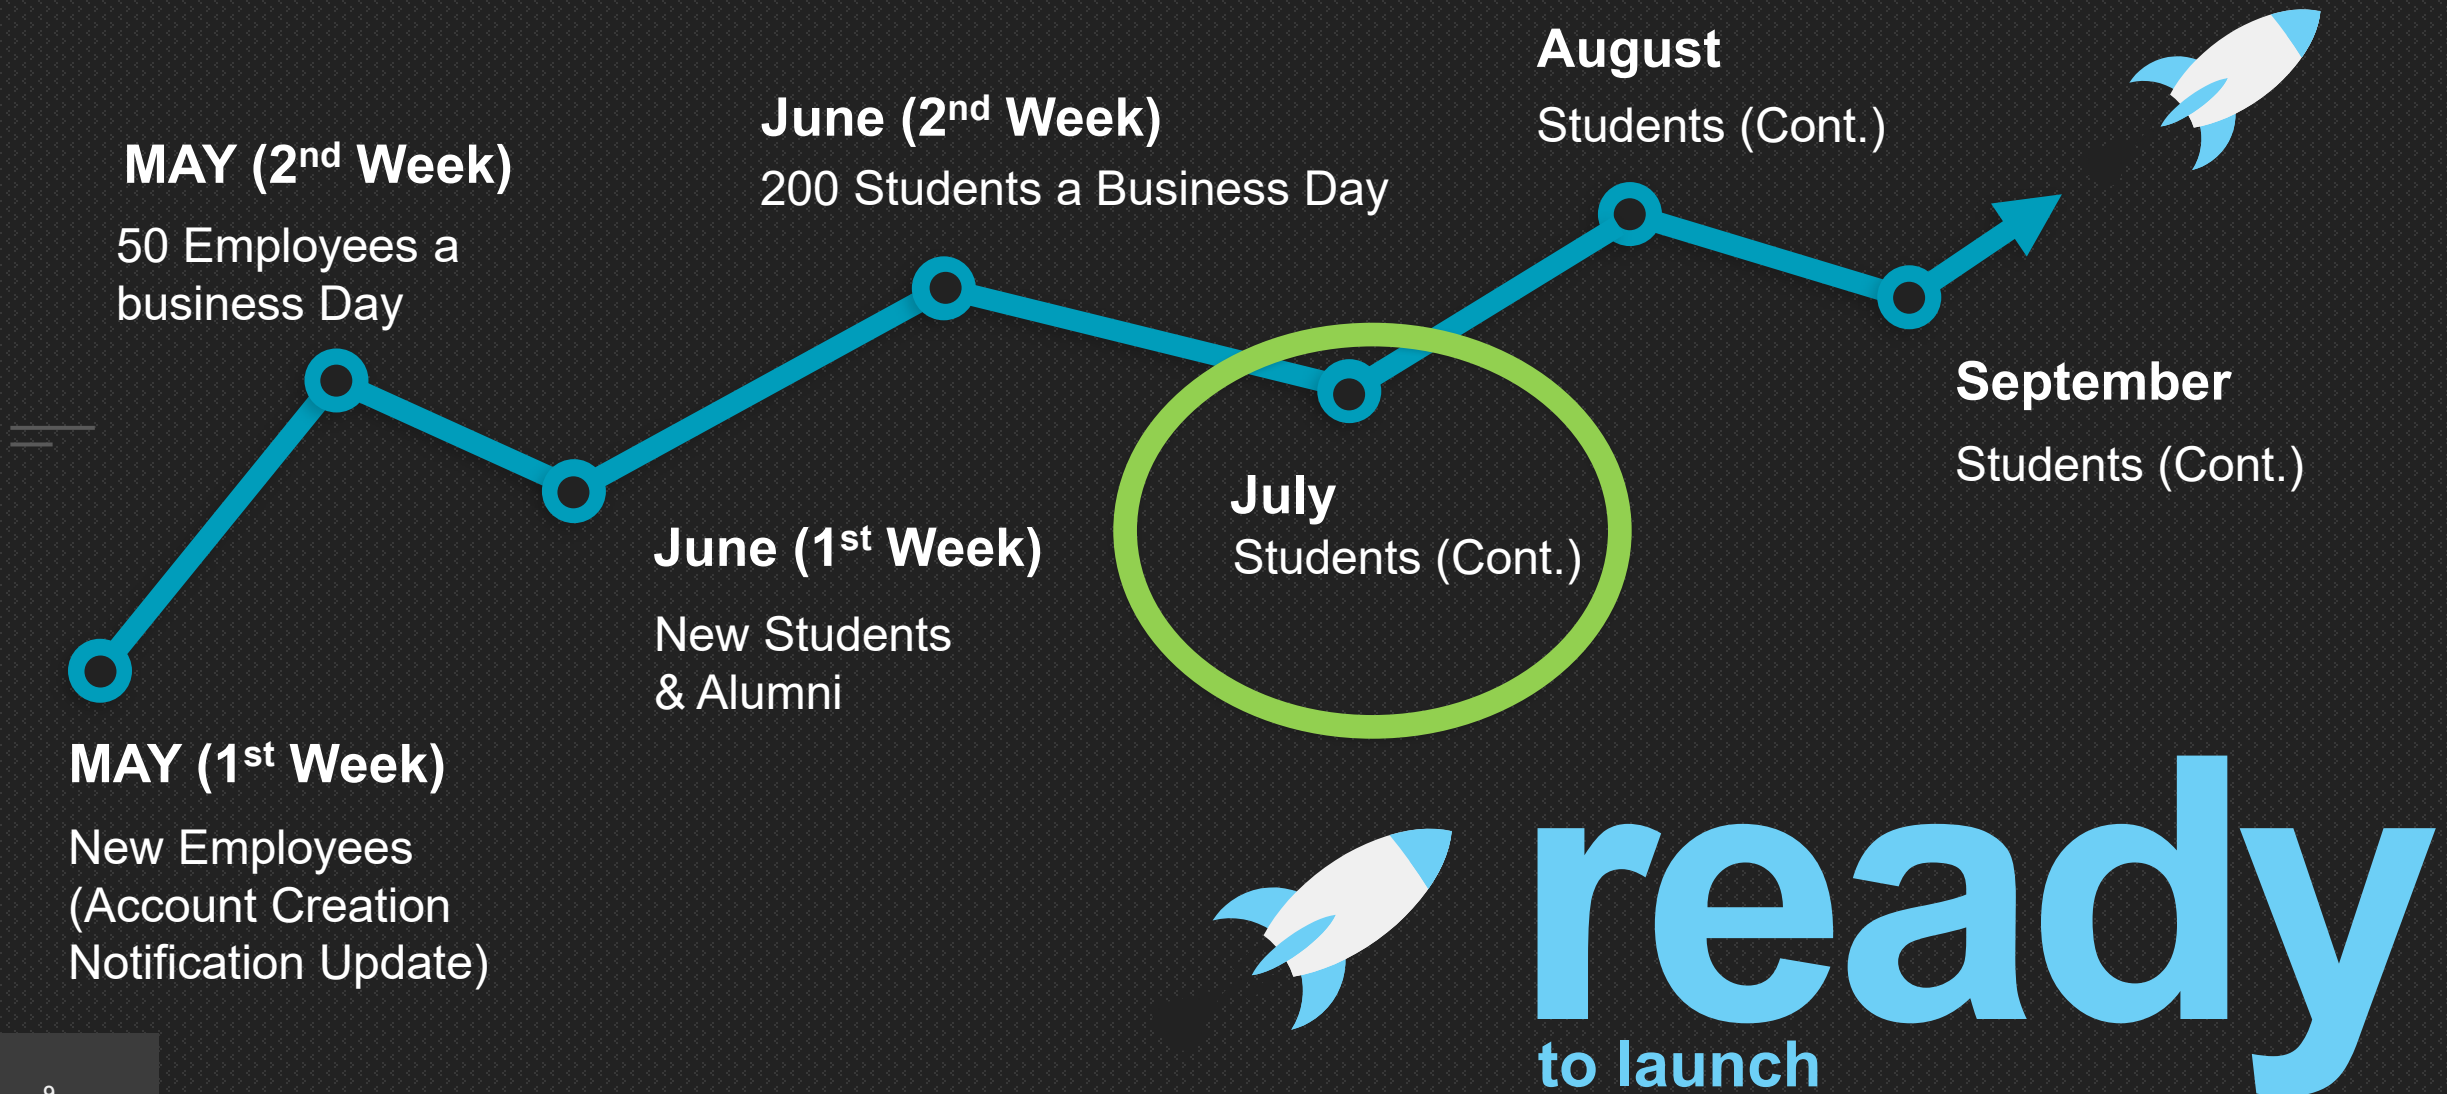

28 Days from the day that they enroll in their first class.

The diagram illustrates the MFA enforcement process. It starts with a 'CSUDH Authentication Service' login page. This page features a 'Username' field, a 'Password' field with masked characters, a 'Sign in' button, and links for 'Forgot username?' and 'Forgot password?'. A large red arrow points down from this page to a second page. The second page, also titled 'CSUDH Authentication Service', displays a message: 'The countdown has begun. You have 14 days left to enroll in DUO. Enrolling in Duo will allow you to continue accessing CSUDH Authentication Services. Enroll your smartphone now or request a Duo token. Here is more information on Duo.' A red rectangular box highlights the enrollment deadline information. At the bottom of this page is a 'Continue to service' button.
