### **Campus Catering Policy**

---

The University's food service contractor operates under a contract with the Foundation. As is common in most campus food service agreements, the food service contractor is granted exclusive rights to provide food services on our campus. It is imperative that the Foundation and the campus honor the commitment in the contract.

It is University policy that any catering activities held on campus must be provided by the Foundation's food service contractor (currently Service America, Inc.). It is the responsibility of the Foundation to ensure that quality food and service are provided at fair prices by this contractor. Questions regarding this policy or requests for exemptions due to special circumstances, as well as suggestions for improved service, should be addressed to the Director of the foundation, Jacqueline Sells\* (extension 3306).

Thank you for your cooperation.

**\*Currently, Kent Gibson, Executive Director of the CSUDH Foundation, ex. 3306.**
