

To Whom It May Concern.

Greetings from Bishop Care Center! I am reaching out to you all today to introduce myself and in efforts to connect with each one of you. My name is Todd Stewart, and I am the new facility Administrator here at Bishop Care Center (BCC) located in Bishop, CA.

My wife and I are excited to move our family here as we have a love for the outdoors and the feeling of a tight-knit community, and I know that Bishop and its surrounding areas will provide this. I am humbled for this opportunity to be in this beautiful city and excited to assist in ensuring the most quality of care is provided on a continuous basis here at BCC. Most of all, I am eager to meet, learn, partner and grow with each of you to be a source of partnership and growth for the current and future students looking to further their healthcare careers.

Bishop Care Center (BCC) is a dually licensed "Skilled Nursing Facility (SNF)" with an inpatient/outpatient rehabilitation program, 24-hour nursing care, IV therapy, wound care, dietary, social services, and other room/board related services. The team is filled with experienced, dedicated and compassionate staff who come to work each day ready to serve and provide quality care for every patient. We have an in-house specialty unit (Rapid Recovery unit (RRU)), which is created to ensure our residents will meet maximal potential with goals and return home as quickly and safely as possible in an innovative approach to short-term rehabilitation. (Refer to our brochure for more information).

We are currently hiring for CNAs, LVNs and RNs for this facility available at all shifts (AM, PM, NOC) and we are looking to collaborate in efforts to provide students pathways toward career opportunity and growth in the healthcare industry. This facility is committed to the ongoing education, training and opportunity to expand upon their foundation of knowledge developed from their time at school and will assist in sustaining this along with opening doors for future success in other potential avenues of healthcare, as desired.

Again, I am excited to continue developing and maintaining relationships with you and your students and helping in any way. I look forward to collaborating more and please do not hesitate to reach out with any clarifications, questions or concerns.

Kindest regards,

Todd Stewart, LNHA
