Water Action Plan

CSU DOMINGUEZ HILLS

2018 Calendar Year Update

Office of Sustainability
2018 Calendar Year Update

Overall Usage

After establishing the Water Action Plan in 2017, the campus was able to decrease its overall consumption (reclaimed and potable) of water by 2,997 CCF (or 2,241,756 gallons) in the 2018 calendar year.

Reclaimed and Potable Water Usage

Potable water on campus is mostly used for indoor applications, with the exception of landscaping in Housing and parts of Parking Lot 7 while reclaimed water is used exclusively for outdoor irrigation.

Based on the Five Year Water Action Plan, the campus is committed to water conservation targets in all categories: potable water usage, reclaimed water usage, and overall water consumption.

Five year comparison of actual water consumption in CCF including the 2018 calendar year is included below:

<table>
<thead>
<tr>
<th>Calendar Year</th>
<th>Potable Water (CCF)</th>
<th>Reclaimed Water (CCF)</th>
<th>Total (CCF)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2014</td>
<td>40,360</td>
<td>73,472</td>
<td>113,832</td>
</tr>
</tbody>
</table>

<td>110,301</td>
</tr>
</tbody>
</table>

### Water Action Plan Progress

Based on the Five Year Water Action Plan, the campus will currently require additional efforts to meet its targets despite an overall 3% reduction in water consumption in the 2018 calendar year:

<table>
<thead>
<tr>
<th>Category</th>
<th>Goal</th>
<th>2018 CY Usage</th>
<th>Reductions Needed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Net Zero Water: water consumption matches natural water balance</td>
<td>80,228 CCF</td>
<td>110,301 CCF</td>
<td>30,073 CCF</td>
</tr>
<tr>
<td>Chancellor’s Office: 20% water conservation from 2013 levels by 2020</td>
<td>76,785 CCF</td>
<td>110,301 CCF</td>
<td>33,516 CCF</td>
</tr>
<tr>
<td>Potable Water: 10% reduction per capita from 2013 levels</td>
<td>2,444.7 gallons/capita (10% from 2013 levels)</td>
<td>2,880.69 gallons/capita (12,616.1 FTE Employees &amp; Students)</td>
<td>435.99 gallons/capita</td>
</tr>
<tr>
<td>Reclaimed Water: 20% reduction from 2013 levels</td>
<td>56,080 CCF</td>
<td>61,714 CCF</td>
<td>634 CCF</td>
</tr>
</tbody>
</table>

### 2018 Calendar Year Activities

To support the Water Action Plan’s goals, the campus implemented several measures in the 2018 calendar year to support water conservation and efficiency:

- Facilities Services continued to respond to reports of leaks by campus users, addressing 93 placed work orders related to plumbing leaks in the 2018 calendar year.
- Continued to add water sub-meters where feasible to campus buildings and equipment.
- Integrated soft infrastructure projects to help renew water balance as part of new capital planning project design for the new science and business buildings as well as the new phase of Housing (all under construction).
- Ongoing construction of the new science building which is slated to be certified as a LEED Platinum building.
- Continued to upgrade the CalWater sensor system to add additional irrigation points for monitoring.
• Enforced code compliance on new toilets and fixtures replacing existing fixtures (1.2 gpm sinks, 1.28 gpf toilets).
• The Sustainable Landscape Committee continued to review landscape projects for ensuring compliance with the Sustainable Landscape Plan which incorporates MWELO standards for irrigation. The campus earned 2018 Tree Campus USA recognition for its management efforts.
• Students from the Office of Sustainability completed a campus-wide inventory of existing fixtures in public restrooms, identifying a priority list for retrofit based on current code standards. Based on their assessment, 92% of sinks, 37% of shower heads, 45% of urinals, and 71% of toilets do not meet current CalGreen and campus standards.
