2023 Best Colleges - Main Survey

Please Read Instructions

2023 BEST COLLEGES
Main Statistical Data Collection
Welcome. *U.S. News & World Report* is now collecting data for the 2023 edition of Best Colleges. The rankings and directory data your institution reports will help connect prospective students with their best fit schools.

**Survey Deadline:** June 1st, 2022

There are three steps in the submission process:

**Step 1: Data** - Complete the questionnaire to the fullest extent your data and history allow. If you are not able to answer a question, leave it blank. If you have questions or concerns about how best to respond to a specific item, click the "Help" button on the top right-hand side of the screen to access the next available U.S. News survey research associate. This process is a slight change from recent years and has been implemented to ensure questions are handled in as timely a manner as possible.

For many questions, data your institution reported in previous survey(s) are provided for reference. Note that **U.S. News only publishes data pertaining to the most recent year collected**, although historic data may be applied toward rankings calculations for multi-year averages.

Report statistical data using consistent standards throughout U.S. News's main, finance and financial aid surveys. For example, if reporting enrollment data specific to a single campus for this main survey, expenditures data reported in the finance survey must also pertain only to this single campus and not several campuses.

Many questions in these surveys replicate definitions from the Common Data Set, the Integrated Postsecondary Education Data System, the American Association of University Professors and CASE. For accuracy in completing U.S. News surveys, please reference any data already reported to these entities. This survey and rankings are designed for regionally accredited institutions that will deliver some face-to-face instruction to bachelor’s degree-seeking students this fall. If any of these criteria do not apply at all to your institution – or if your institution is closing, no longer accepting new applicants and/or recently merged into another institution – please email official@usnews.com (mailto:rmorse@usnews.com) with brief explanation. Starting in late summer, eligible institutions will be able to report data specific to distance education programs for degree completion/adult learners as part of the Best Online Bachelor's Programs (https://www.usnews.com/education/online-education/bachelors) rankings.

**Step 2: Assessment** - After entering your data, navigate to the ‘Main Survey Assessment’ section. The assessment runs a statistical comparison between your most recent data and the data submitted last year and will algorithmically identify potential errors such as very large changes between the two years of data that
may need to be confirmed or resolved. If large changes are flagged, a text box has been added that should be used to explain the change. In the case of a large change, the survey will not submit without providing an explanation. Note that U.S. News only publishes individual cohort-level data on schools' most recently reported cohorts; however, historic data are used in multiple ranking factors.

For more information, please go to the main assessment section.

Step 3: Verification – After reviewing the assessment and fixing any remaining errors, navigate to the section titled "Verification". This is where the survey submission takes place. Please carefully review your survey data one last time. When you are ready, you must select the check box, fill out all the identification information (which must include signoff from the Dean or equivalent official who has signed off on the data) and hit the red “Submit Survey” button. Failure to check the verification box and have the Dean or equivalent official fill out their information may be noted when the data are published and/or may result in the school not being ranked.

Important Icons
* The red asterisk located next to a few question numbers indicated that the question is mandatory. If the question is not answered you will be unable to submit the survey. All assessment flags are mandatory and must be addressed.
❌ The red x indicates that you have not filled out the question correctly. There will be a line of text that accompanies the icon letting you know what is the exact problem. Once the issue is corrected the x disappears. All failed validations must be fixed before the survey can be submitted.
⚠ The gold shield indicates that the question has been used in the most recent U.S. News Best Colleges rankings calculations or is under consideration for use in the upcoming edition. For this year's data collection no new questions have a gold shield.
🔍 The question mark indicates a tip on how to answer that particular question.
 располагает значком, обозначающим подсказку по ответу на вопрос.
🔗 The checkbox indicates the assessment section of the survey.
🔗 The upward arrow indicates the verification section of the survey. This is where the submission button is located.

Entering Data
To navigate among fields you may either click on the field to which you wish to move or press the Tab key until you reach it. To move between individual pages of the survey click on the "Next" or "Previous" links at the bottom of the page. You may also click on the section links listed in the index on the right-hand side of the screen and go to any page in the survey.

Saving Data
Saving data happens automatically when a few actions are taken. One, you select the 'Next' button at the bottom of the page. Two, you select and navigate to another section in the question index. Three, you hit the 'Save' button at the bottom of a page. If you plan on leaving the survey before completion, please hit the save button before exiting the survey.

Getting Help
If you have questions or encounter problems while you are completing the survey, click the "Help" button on the top right-hand side of the screen. This facilitates contacting the next available survey research associate who will respond to your question within three business days (typically sooner).
The Common Data Set
As stated earlier, U.S. News uses questions from the Common Data Set (CDS). The CDS initiative is a collaborative effort among data providers in the higher education community and publishers as represented by the College Board, Thomson Peterson’s, and U.S. News & World Report. We hope that this effort to standardize data definitions makes it easier to complete our questionnaire.
For easy reference, all CDS items are noted throughout the Main and Financial Aid surveys. The CDS does not cover any of the questions on the Finance survey. Please note that some of the questions used in the Best Colleges rankings are unique to the U.S. News survey and are not included on the CDS. After you have submitted your CDS, you will have an opportunity to submit information for these questions.

All CDS submissions must be received by May 20th 2022 in order to allow enough time for data entry and processing in-house. Please contact usnews-data-collection@usnews.com for more information.

Cross-referencing submissions: U.S. News in its discretion will conduct cross-referencing of data against previous years' submissions and third party sources. Regardless, schools are ultimately responsible for the accuracy of the data that they submit. If you need more details on how the cross-checking or missing data fill-ins will work, contact official@usnews.com (mailto:rmorse@usnews.com).

New questions in Main Survey
- The lone new question is Question 199. It collects data on instructional faculty diversity, using definitions aligning with the IPEDS Human Resources survey.
- To reduce survey burden, fifteen questions from last year's main survey with lower response rates have been removed from this year's main survey.

Potential overall ranking indicators in Main Survey (flagged as such):
- Enrollment: 49, 50, 54, 55, 59, 60
- High school class standing: 140
- ACT/SAT: 153-159, 166, 167
- Instructional faculty (full-time and terminal degree): 195
- Student faculty ratio: 197
- Faculty salaries: 200
- Class size: 202
- Graduation rates and social mobility: 204
- First-year retention rates: 211
- Alumni giving: 217, 219
- Expenditures: (finance survey)
- Graduate indebtedness: (financial aid survey)

U.S. News has also published other rankings and lists using data from the main survey that may use data from the following:

Campus Diversity
- Student Ethnicity: 64
- Faculty Diversity: 199

Programs to Look For
- Undergraduate Academic Programs of Study: 34, 35
Best Colleges for Veterans
• Enrollment and financial aid policies: 184-188

More on the Best Colleges Ranking
More details on the U.S. News Best Colleges rankings can be found here (https://www.usnews.com/education/best-colleges/articles/how-us-news-calculated-the-rankings). If you have questions or feedback about the Best Colleges rankings methodologies or other education rankings and publications, contact official@usnews.com (mailto:rmorse@usnews.com). Note that out of fairness, U.S. News does not typically inform schools upon individual request about changes to the upcoming rankings methodologies.

U.S. News will likely reveal the 2023 Best Colleges release date, and possibly other updates, a few weeks before publication on the Morse Code blog (https://www.usnews.com/education/blogs/college-rankings-blog). The 2023 rankings and data may be published online and in a print guidebook around the same time of year as the 2022 rankings, but no date has been finalized.

On behalf of the data team and staff here at U.S. News and our many appreciative users, thank you for your time and effort!

26.) Unique Qualities during the 2021-2022 academic year.
As part of each entry in a directory of colleges and universities, U.S. News would like to feature a brief description of the school's mission and unique qualities. Please provide a summary of what makes your school special. What are its strengths and attributes? Maximum number of allowable characters is 4000. Please do not include bullets, paragraph breaks, special characters, or other special formatting.
California State University, Dominguez Hills is a comprehensive urban university, located in the city of Carson and primarily serving the greater Los Angeles metropolitan area. The University is a multi-cultural, multi-ethnic teaching and learning community dedicated to excellence and committed to educating a student population of unprecedented diversity for leadership roles in the global community of the 21st Century. We invite international perspectives, cultivate programs that serve students from other nations, and encourage our students and faculty to participate in programs in other countries. We are committed to quality and pluralism in higher education to further the goals of a democratic society through wide participation and civic responsibility in community, social, and economic affairs. California State University, Dominguez Hills realizes the principles of educational opportunity and excellence by providing access to a wide range of educational programs and student-centered services. Building on its core of liberal arts and sciences, the university offers programs in a variety of educational and technological modes that enable students to develop intellectually, personally and professionally. These programs are offered at times and locations convenient for the students we serve. California State University, Dominguez Hills pursues productive relationships with educational, public sector, and business communities, by developing programs that address contemporary social concerns while fulfilling the University's commitment to teaching and learning, research, scholarship, creative activity and service.

We provide education, scholarship and service that are, by design, accessible and transformative. We welcome students who seek academic achievement, personal fulfillment, and preparation for the work of today and tomorrow.

35.) Undergraduate Academic Programs of Study
Please check each academic program offered and report the percent of 2021 graduating seniors who have participated in these programs during their undergraduate years. Which programs are offered may be used to verify the Programs to Look For rankings.

First-year Experiences: Curricular and/or co-curricular programs beyond orientation that bring together faculty and/or staff and groups of first-year students to: address the development of knowledge, skills, and/or perspectives for academic and college success; promote meaningful student-faculty interaction (one-on-one or in small groups).

Learning Communities: Groups of students that take part as a cohort in intentional, institutionally-designed curricula, most often consisting of at least two linked courses, that are designed to address academic and social development inside and outside the classroom through planned interactions among the cohort and with the faculty.
Senior Capstone of Culminating Academic Experiences: Integrative, credit-bearing experiences, offered in the last stages of a student’s program of studies, which aim to have the student synthesize the academic experience, often in the creation of a product that demonstrates the ability to frame and resolve an open-ended question, or of a performance or an exhibit.

Undergraduate Research: Self-directed academic work by an individual student or by small groups of students that deals with an open-ended issue with the expectation of a substantial scholarly or creative product that can be formally presented on or off campus. Such work is undertaken with a faculty mentor for at least one academic term or intensive summer, and students understand their roles as researchers/creators and act in those roles.

Service Learning: An academically-based instructional strategy, credit-bearing or required for a degree, that provides students with both meaningful service opportunities in interactive partnership with the community and academic structures for analysis and reflection on their contributions and learning.

Study Abroad: Substantial academic, credit-bearing study, the equivalent of at least one full course, under faculty supervision, conducted outside the United States but approved by the home institution, which includes substantive interaction between the student and the host culture and/or environment.

Internships, Cooperative Education, or Practica: The practical application of learning from a specific academic program in a pre-planned out-of-class situation equivalent in time to at least 1 academic credit, paid or unpaid, requiring structured reflection and/or an end product, supervised and evaluated by faculty, field person, or cooperating professional directing the learning activity.

Writing in the Disciplines: Institutional commitment, manifest through an organized approach, to significant student participation in writing embedded in courses at all levels and in all divisions of the curriculum. To accomplish significant writing over time and at increasing levels of sophistication, it often includes writing experiences in many different disciplines, varied forms of writing for varied audiences, and iterative writing processes.

2021 Enrollment

**Institutional Enrollment:** Provide numbers of students for each of the following categories as of the institution's official fall reporting date or as of October 13, 2021. Degree-seeking students are those enrolled in courses for credit who are recognized by the institution as seeking a degree or recognized postsecondary credential. Full time undergraduates are those enrolled for 12 or more semester credits, 12 or more quarter credits, or 24 or more clock hours a week each term. Please report students formerly designated as "first professional" in the graduate cells. Last year's enrollment grid is included for your reference.

49.)

2021 Full-time Enrollment:

*For ranking purposes, complete all cells – not just totals – in this question, the part-time enrollment question and historic enrollment questions.*

*If your institution enrolls full-time and part-time students, complete both grids (or none); do not complete only one.*

Ethnicity Enrollment and Degrees Awarded

Enrollment by Racial & Ethnic Category: Provide numbers of undergraduates for each of the following categories as of the institution's official fall reporting date or as of October 15, 2021. Include international students only in the category "Nonresident aliens." Report as your institution reports to IPEDS: persons who are Hispanic should be reported only on the Hispanic line, not under any race, and persons who are non-Hispanic multi-racial should be reported only under "Two or more races."

Notes:
- Degree seeking undergraduates (2nd column) should include the degree seeking, first-time, first year students in column one.
- If there are no students in a category, enter zero.

**ACT and SAT**
Note: U.S. News has not made any final determination about its treatment of ACT/SAT data in the upcoming rankings.

In accordance with CDS guidelines, report on ALL your institutions' fall 2021 new entrants' ACT/SAT scores your records allow. These include any scores that were not factored in admissions decisions, such as those collected for academic counseling.

As always, U.S. News will publish test data to help connect prospective students with best fit schools.

147.) If SAT and/or ACT exams are not required for all applicants, which of the following best describes your institutions current admissions policy:

- Test flexible – Applicants are required to submit standardized test scores, but may submit alternative exam scores (e.g. AP exams, IB exams) instead of ACT or SAT scores.
- Test optional – Applicants are not required to submit standardized test scores, but standardized test scores are considered in admissions decisions. This includes schools that may require SAT/ACT scores for applicants in limited circumstances.
- Test optional only for international applicants -- Only international applicants may apply without submitting SAT or ACT exams.
- Test blind -- Standardized test scores are never considered in admissions decisions.
- Test blind with exceptions – Standardized test scores by default are not considered in admissions decisions, but may be considered under qualifying circumstances (e.g. applicants with GPAs below a threshold).

This data is rolled over from last year.
148.) If your institution will make use of the ACT in admission decisions for first-time, first-year, degree-seeking applicants for Fall 2023, please indicate which ONE of the following applies (regardless of whether the writing score will be used in the admissions process):

- ACT with Writing required
- ACT with Writing recommended
- ACT with or without Writing accepted
- No Answer

149.) Latest date by which SAT or ACT scores must be received for fall-term admission:

CDS C8B This data is rolled over from last year.

150.) If your institution makes use of ACT and SAT in admissions decisions, which of the following best describes its policy toward score choice for applicants submitting test scores:

- Submission of all exam scores is required. Applicants must submit all their ACT and SAT scores as part of their applications.
- Submission of all exam scores is recommended. Although submission of all ACT and SAT scores is not required, your institution recommends applicants submit all ACT and SAT scores.
- Submissions of all exam scores is not required nor recommended. Applicants may submit whichever ACT and/or SAT scores they elect and your institution does not encourage otherwise.

- All exam scores required
- All exam scores recommended
- All exam scores not required nor recommended
- None of the above
151.) Does your institution apply superscoring to applicants’ ACT and SAT scores? Superscoring is defined by admissions only considering an applicant’s highest section scores if they took an exam more than once.

- Superscoring is applied for ACT/SAT
- Superscoring is not applied for ACT/SAT
- Neither/Not applicable
- No Answer

152.) If necessary, use this space to clarify your test policies (e.g., if tests are recommended for some students, or if tests are not required of some students). Do not include bullets, paragraph breaks, special characters, or other special formatting:

Maximum number of allowable characters is 500

152.) Test Score Submission: In the following questions, please provide the percent and number of first-time, first-year students enrolled in fall 2021 who submitted national standardized (SAT/ACT) test scores:

- Include information for ALL enrolled, first-time, first-year (freshman) degree-seeking students -- full, or part-time-- who submitted test scores, including students who began studies during summer, international students / nonresident aliens, and students admitted under special arrangements.
- Do not include partial test scores (e.g., SAT mathematics scores but not SAT reading for a category of students) or combine other standardized test results (such as TOEFL) in these items.
- Do not convert SAT scores to ACT scores and vice versa. (U.S. News will convert your reported SAT and ACT scores to 0-100 percentile distributions and weight by proportions submitting each exam for use in ranking calculations.)
- If a student submitted multiple sets of scores for a single test, report this information according to how you use the data as reported in the preceding questions. For example:
  - If you consider the highest scores from either submission, use the highest combination of scores (e.g., reading from one submission, math from the other).
  - If you average the scores, use the average to report the scores.

**Full-time instructional faculty:** employed on a full-time basis for instruction (including those with released time for research)

**Part-time instructional faculty:** Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

**Minority faculty:** includes faculty who designate themselves as Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or other Pacific Islander; Two or more races; or Hispanic.

**Doctorate:** includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Doctor of Philosophy in any field such as arts, services, education, engineering, business, or public administration. Also includes terminal degrees formerly designated as "first-professional" including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), law (JD).

**Terminal Master's degree:** a master's degree that is considered the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts in art or theatre).

Faculty: Salaries

Please report the salaries of full-time instructional faculty members for the 2021-2022 academic year. The grid conforms to Form 2 from the American Association of University Professor (AAUP) data collection.

**Whom to Include:**

- Full-time faculty members who are on the payroll of the institution as of November 1, 2021 and working 9-, 10-, 11-, or 12-month contracts.
- Full-time “Primarily Instructional” and “Instructional/Research Public Service” faculty members whose regular assignment has an instruction component (including release time for research), regardless of
whether they are formally designated as "faculty" and irrespective of tenure status.

- Faculty who are working on a reduced load (e.g., 0.75 FTE) but who are still considered full-time in the institution's HR/payroll system. In this case, report their projected annual salary expenditures by determining what their base salary would be for a full load (e.g., salary / FTE).
- Full-time faculty members who are on sabbatical or leave with pay. In this case, report their regular salaries even though they may be receiving reduced salaries while sabbatical or leave.
- Replacement faculty for those on sabbatical or leave without pay, but only if the replacement faculty are employed full-time.
- Full-time instructional faculty with “clinical” job titles.

**Whom to Exclude:**

- Faculty who are not employed on a full-time basis irrespective of tenure status.
- Faculty who are working less-than-9-month contracts.
- Clinical or basic science faculty, medical faculty, and/or military faculty paid on a different scale from civilian employees.
- Faculty on sabbatical or leave without pay.
- Replacement faculty for those on sabbatical or leave with pay.
- Faculty on courtesy appointments and other faculty members whose services are valued by bookkeeping entries rather than by full cash transactions, unless their salaries are determined by the same principles as those who do not donate their services.
- Contributed service personnel, or administrative officers with titles such as Provost, Dean, Associate or Assistant Dean, Librarian, Counselor, Registrar, or Coach, even though they may devote part of their time to classroom instruction and may have faculty status.

**Academic Rank:** Report the academic rank as of November 1, 2021 as follows:

- Report ranked faculty, including ranked teaching faculty (e.g., associate teaching professor), at their named rank at the institution, irrespective of tenure status.
- If your institution does not have a faculty ranking system, for example if all faculty members are referred to as “instructors,” report all full-time faculty in just one of the rows.

**Length of contract:** Data for faculty whose base contract requires 9 or 10 months of instruction (e.g., two semesters, three quarters, or two trimesters) should be reported regardless of whether the pay period extends over 12 months. Data for faculty working 11- or 12-month contracts should be reported regardless of the number of installments.

**Number of Faculty:** Report an unduplicated headcount of faculty members in each cell. Do not report full-time equivalent (FTE) figures. Note that projected annual salary expenditures should be adjusted, if necessary, for faculty working on reduced load (see below).

**Total Contracted Salaries (Faculty Salary Outlays):** Report the projected annual expenditure for full-time contracted salaries excluding extra loads, summer teaching, stipends, or other forms of remuneration. For faculty working on a reduced load (e.g., 0.75 FTE), adjust their projected annual salary expenditures by determining what their base salary would be for a full load (e.g., salary / FTE).
For full-time instructional faculty serving as department or program heads and having no other administrative title, report only their base instructional salary (i.e., excluding administrative stipends), adjusting their projected annual salary expenditures if appropriate by determining what their base salary would be for a full instructional load (e.g., salary / FTE).

200.)
Full-time Instructional Faculty Salaries - 2021-2022 Academic Year:
After reviewing the above definitions, adhere to the following guidelines:
• Report counts of faculty and their corresponding total contracted (e.g. cumulative) salaries, using guidance above. This means do not average salaries.
• Include salaries for non-tenure-track faculty members who are full-time instructional faculty.
• Report all projected annual expenditures on an actual basis (no conversion). If reported, salary expenditures for faculty working 11- and 12-month contracts will be annualized by U.S. News.
• Report salary figures based on what faculty members were actually paid. If your institution has implemented temporary salary reductions due to COVID-19, the salary figures should reflect the pay cut.

Class Sections

202.) Undergraduate Class Size: In the table below, please use the following definitions to report information about the size of class sections offered in the Fall 2021 term. Fall 2020 data provided for your reference.
Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.
- For each undergraduate class section that meets the above criteria, report counts of all students enrolled in those classes, including graduate students. Class sections administered to a blend of face-to-face students and distance learners must include the distance learners.

### Graduation and Retention

204.)
Graduation rates - 2015 Cohort.
Please read all instructions before completing.
The following questions ask for information needed to calculate the six-year graduation rate for the cohort of full-time, first-time, bachelor's (or equivalent) degree-seeking undergraduate students who entered your institution in the Fall of 2015.

- The graduation and retention figures below must align with what your institution reported to IPEDS, unless your institution reported inaccurate information that is being corrected.
- Include students who entered your institution during the Summer term preceding Fall of 2015.
- Students are to be considered to have received a grant or loan if they received it for the period used for determining the cohort - fall term.

This question is used in the Rankings calculation.

Undergraduate Alumni Giving: Please enter information on undergraduate alumni giving, as defined below. As noted, excludex|e former students who earned only graduate degrees and undergraduates who didn't graduate from your institution. Additionally, exclude all student giving (e.g., senior class gift) unless you count the entire senior student body in the alumni of record total.
Please follow the standards set by the Council for Aid to Education (CAE) and the Council for Advancement and Support of Education (CASE), and used for reporting to CAE for the Voluntary Support of Education Survey when answering these questions. If you do not break down undergraduate-only giving for the CAE survey, please do so for this report.
For individual donations from households with multiple (e.g. two) alumni, report each as separate donors if possible.

- An online bachelor's degree program is a program for which the vast majority of required coursework for program completion is able to be completed via distance education courses that incorporate Internet-based learning technologies. Distance education courses are courses that deliver instruction to students who are separated from the instructor, and support regular and substantive interaction between the students and the instructor synchronously or asynchronously. Note that the requirements for coming to campus for orientation, testing, academic support services and other sporadic requirements do not exclude a program from being classified as an online bachelor's degree program.

Programs/Services for Students with Learning Disabilities

Programs/Services for Students with Learning Disabilities offered during the 2021-2022 academic year

270.) Check one type that describes your school’s LD Program:

Structured/Proactive/Comprehensive program:
Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

Self-directed/decentralized services:
There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students’ progress is not monitored.

Compliance:
Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.

Assessment

The following section contains a brief analysis of ranking data your school submitted on this year's Main statistical survey. All flagged data (identified by the red asterisk *) must be addressed in order to submit your survey. To acknowledge that the flagged data is in fact correct, please select the confirmation checkbox associated with item in question. Once every flagged assessment item has been either confirmed or corrected, please proceed to the verification section.

Making Data Changes – If you notice an incorrect current year value please go back into the survey and correct the data point. The question numbers are listed for your reference. Changing last year’s data must be done through a survey research associate. Please contact usnews-data-collection@usnews.com with the updated information and a brief description as to why it needs changing. We will analyze the requested changes on a case by case basis and get back to you. Note that U.S. News only publishes data pertaining to the most recent years in each survey question, which means there is no need to revise historic data unless it is flagged as being potentially used in the rankings.

Below is a list of some terminology you may encounter:

Large Change - For the questions(s) indicated, the data submitted for the current year are significantly larger or smaller than the data supplied for the previous year. If the data supplied are correct as entered, please include an explanation in the text box provided. If you need more space to explain than that provided, email us at usnews-data-collection@usnews.com. If the data is incorrect, please go back into the survey and supply new data.

Missing - No information has been submitted for this indicator. If the question does not apply to your institution, or if you cannot supply the data requested, please check the box. If you can supply the missing data, please go back into the survey and enter the new data. If you wish to add in missing previous year data, please contact usnews-data-collection@usnews.com with that information.

High Value - The data submitted are significantly higher than the norm. Please either correct the figure or verify that the data are correct as submitted.

Verification/Submission

327.) Verification/Submission

The final step prior to survey submission is what we call “Verification”. Please share the survey responses with a senior administrator such as a President, Provost, Dean (or what your institution considers an equivalent position) for their final approval. When ready, you must fill in all of the information below, including both check boxes, both sets of identification, institution name and the verification date. After the information is entered, hit the red “Submit Survey” button. Failure to check the verification box and have the President, Provost, Dean or top academic official signoff may be noted when the data are published and/or may result in the school not being ranked.

If you have any questions about your institution's verification or this procedure, please contact your U.S. News data collector.
On behalf of U.S. News and its many users, thank you for the time and effort you have given to supply and verify this information.

- The senior administrator identified below hereby verifies that the information on this survey is accurate, and accurately describes the institution.
