Updating Your Organization’s Details

To make changes to an organization page, you must be the primary contact or hold an officer position within the group assigned access to administrative features.

Editing Organization Information
You can update your organization summary, contact information, social media information, and profile picture here.

You can also include contact information you would like to share with users of Coyote Connection. Please note that this information is public and optional. To avoid scams or solicitation messages, consider using CSUDH’s address and a general email associated with the department/Student organization.
Lastly, you can include links to any social media your organization may have. If you add a Facebook link, make sure it is a group page. Links to personal profiles will not display on your page.
